

Clark Forklift Parts

Clark Forklift Parts - Presently, there are no less than 350,000 Clark lift trucks performing worldwide, and upwards of 250,000 in commission in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 unique brands of forklifts, with parts covering more than 120,000 specific parts for all of its automated equipment. Your regional Clark Supplier is your complete source for availability of all your components requirements supplied by Clark Totalift.

Clark features a phenomenal Parts Distribution team. The components warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their buyers and their dealers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Driven to offer the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to enhancing efficiency and benefiting performance.

Clark Totalift has a very amazing worldwide support network. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of dedication to their clients predominates the materials handling industry.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of innovation in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is currently a customary feature on every lift truck.

Clark's relentless goal to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck producer across the globe to be certified with the internationally accepted quality standard ISO 9001 for every one of their production facilities. Furthermore, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental restrictions, thus placing them in a dominant industry position.

Clark has selected the structure of "Lean Production" at all of its assembly plants for the reason that this system is particularly economical and allows for minimal use of resources. Established to ensure maximum efficiency, this system is intended to discover and acknowledge the most efficient methods for production facility stewardship. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to upgrade the efficiency and brilliance of their merchandise while minimizing expenses. The contemporary value engineering program combines modern product development and offers improved client support and service within the industry.
