

TCM Forklift Parts

TCM Forklift Part - In the international business of material handling, forklifts play an important part for transporting industrial goods. Originally innovated as industrial vehicles during the 1930s in the United States, forklifts gained recognition after World War II during the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these equipment spread internationally.

In 1949, started by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Now the company is simply called TCM Corporation. Through the years, TCM lift trucks have become an international leader in lift truck manufacturing and have built a solid reputation in the business. TCM began building lift truck manufacturing sites outside of Japan in the 1980s and is presently engaged in forklift manufacturer at three foreign factories in China, the United States and Europe.

TCM proudly makes various models of industrial forklifts with more than 50 years of accumulated technology and expertise, making their products used and recognized all over the world. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and aspires to become a world-class leading company.
