Advance-Nilfisk Part - Imagine how long and tedious it will be to tidy up after a party, without assistance from equipment. Not too long ago, the dust from carpets and upholstery had to be beat out of them manually; brooms, brushes and cleaning cloths were the best cleaning products back then.

The man who established Nilfisk-Advance, P.A. Fisker, started as an electrical engineer who really liked to work on electrical motors. After starting his business during the year 1906, he began to produce motors to drive drills, coffee grinders, fans and machine tools. Mr. Fisker's vision from the beginning was to have a worldwide business advertising merchandise globally.

The Nilfisk C1 was an incredible breakthrough for the cleaning trade. This ground breaking vacuum cleaner, invented by Mr. Fisker, weighed just 17.5 kilos and could be operated by a single person. This creation came in a time where various cleaning equipment were very big and needed at least 4 operators, hence, the Nilfisk C1 transformed everything and evolved the method we clean forever. The mastermind behind these very first cleaning equipment remains unparalleled. Cleaning machines provide an excellent solution to an ongoing dilemma; things get filthy and should be cleaned regularly, without too much effort.

Little by little, the company Nilfisk-Advance expanded all through the years. In the early 1980's the company developed fast when the company became a part of the NKT Group. With new owners on board, they focused on driving Nilfisk-Advance ahead within the trade, aiming to be an active global player in producing professional cleaning machines. Nilfisk-Advance is presently located in all parts of the globe due to gradually obtaining many smaller companies so as to expand their product portfolio and presence in new markets.
