

Meritor Parts

Meritor Part - Meritor is a leading international dealer that is proudly founded on a 100 year tradition of service and quality. They concentrate on various modules, integrated systems and components to original machinery makers and the aftermarket for the industrial and transportation trades.

Meritor values the needs of their clients to ensure their success while priding itself in the company's unique energy and believes this output of energy to be their aggressive advantage in their worldwide operations. Meritor begins with a culture which values diversity of individuals and their broad thought processes. Operating in 19 nations and employing over 11,200 individuals, Meritor promotes innovation and collaboration among a team of experienced experts.

By only employing future focused workers, Meritor strongly feels these top-caliber workers will be able to rapidly adapt to changing surroundings and exhibit the commitment and performance needed so as to attain results in the competitive materials handling business. The business empowers their teams to make sound business decisions in order to improve the overall success of the business. In return, Meritor offers their workers various opportunities for professional and personal growth.

Their Advanced Engineering team is at the forefront of components and system engineering that comprise axles, drivelines, suspension and braking systems utilized for medium and heavy duty trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is likewise responsible for supporting the needs of all their global engineering personnel.

The Quality team at Meritor is a dynamic and customer-focused group that is devoted to ensuring optimum development at their production plants and aftermarket distribution facilities which are situated on 5 continents and in 19 nations.

The supplier development network is particularly located to be able to support new business growth. Regional teams are supported by worldwide quality systems, centralized specialties and initiatives in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making in every aspect of the trade. The DFSS or also referred to as Design for Six Sigma ensures product reliability in each and every region. The team is even included transactional Green Belts who utilize Six Sigma tools to business processes and implement lean techniques.
