

Barrel Clamp

Barrel Clamp - A Barrel Clamp is really a hydraulic or mechanical attachment intended for a forklift. It could be utilized in order to grip the object you want to move using the lift truck and is usually utilized for handling kegs, paper rolls and barrels. Several types of barrel clamp accessories likewise have a rotate function. Like for example, the rotate function permits the person operating the forklift to be able to insert a vertically stored paper into the horizontal intake of a printing press.
